RODERICK G. LEWIS,
Chief Election Officer.

And the House having met,

The Honourable the Lieutenant-Governor, having entered the House, took his seat on the Throne.

Mr. Dunbar, the Provincial Secretary, then said:

"I am commanded by the Honourable the Lieutenant-Governor to state that he does not see fit to declare the causes of the summoning of the present Legislature of this Province until a Speaker of this House shall have been chosen according to law, but to-day at a subsequent hour His Honour will declare the causes of the calling of this Legislature."

His Honour was then pleased to retire.

And the Clerk having called for nominations for the office of Speaker, the Prime Minister, Mr. Frost, addressing himself to the Clerk, proposed to the House for their Speaker, the Rev. Alfred Wallace Downer, Esquire, Member for the Electoral District of Dufferin-Simcoe, which motion was seconded by Mr. Oliver, and it was

Resolved, That the Rev. Alfred Wallace Downer, Esquire, do take the Chair of this House as Speaker.

The Clerk having declared the Honourable Alfred Wallace Downer duly elected, he was conducted by the Prime Minister and Mr. Oliver to the Dais, where, standing on the upper step, he returned his humble acknowledgment to the House for the great honour they had been pleased to confer upon him by choosing him to be their Speaker.

And thereupon he sat down in the Chair and the Mace was laid upon the Table.

The House then adjourned during pleasure.

The Honourable the Lieutenant-Governor then re-entered the House and took his seat on the Throne.

Mr. Speaker then addressed His Honour to the following effect:—

May it please Your Honour,

The Legislative Assembly have elected me as their Speaker, though I am but little able to fulfil the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me and not to the Assembly whose servant I am, and who, through me, the better to enable them to discharge their duty to their Queen and Country, hereby claim all their undoubted rights and privileges, especially that they may have freedom of speech in their debates,

access to your person at all seasonable times, and that their proceedings may receive from you the most favourable consideration.

The Provincial Secretary then said:

Mr. Speaker,

I am commanded by the Honourable the Lieutenant-Governor to declare to you that he freely confides in the duty and attachment of the Assembly to Her Majesty's person and Government, and not doubting that the proceedings will be conducted with wisdom, temperance and prudence, he grants and upon all occasions will recognize and allow the constitutional privileges.

I am commanded also to assure you that the Assembly shall have ready access to His Honour upon all suitable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favourable construction.

The Honourable the Lieutenant-Governor was then pleased to open the Session with the following gracious speech:

Mr. Speaker and Members of the Legislative Assembly:

You are here today to commence your duties as Members of the Twenty-fifth Parliament of the Province of Ontario. I am happy to extend my greetings to each of you on this occasion.

At the time of the dissolution of the Twenty-fourth Parliament three Select Committees were dealing with the very important subject matters of Certificates of Title for Motor Vehicles, Smoke Control and Air Pollution, and Toll Roads. It is very desirable that these Committees should be reconstituted and should continue with the work which was carried on by the Committees in the previous Legislature. The work of these Committees will give opportunity for the regular Session of the Legislature to deal with important matters arising out of their deliberations. Motions will be presented to you dealing with these matters.

I express the wish that you will be guided by Divine Providence in your deliberations and decisions in regard to matters which will come before you in this Special Session and in Sessions to be held in the Twenty-fifth Parliament of Ontario which will deal with matters of great importance to our Province.

His Honour was then pleased to retire.

That, to prevent mistakes, he had obtained a copy of His Honour's Speech which he read.

Mr. Speaker advised the House that Mr. Oliver, Member for Grey South, was recognized as Leader of Her Majesty's Loyal Opposition.

On motion by Mr. Frost, seconded by Mr. Porter,

Ordered, That during the present Session of the Legislative Assembly provision be made for the taking and printing of reports of debates and speeches and to that end that Mr. Speaker be authorized to employ an editor of debates and speeches and the necessary stenographers at such rates of compensation as may be agreed to by him; also that Mr. Speaker be authorized to arrange for the printing of the reports in the amount of eight hundred copies daily, copies of such printed reports to be supplied to the Honourable the Lieutenant-Governor, to Mr. Speaker, to the Clerk of the Legislative Assembly, to the Legislative Library, to each Member of the Assembly, to the Reference Libraries of the Province, to the Press Gallery, to the newspapers of the Province as approved by Mr. Speaker, and the balance to be distributed by the Clerk of the Assembly as directed by Mr. Speaker.

On motion by Mr. Frost, seconded by Mr. Porter,

Ordered, That as the Legislature has been convened in this Special Session for the purpose of considering certain matters which have been laid before you in the Address of the Honourable, the Lieutenant-Governor, the House hereby resolves to dispense with the customary formal Debate on the subject matters of the Address as such matters may be debated during the consideration of the Motions submitted to the House.

On motion by Mr. Frost, seconded by Mr. Porter,

Ordered, That a Select Committee of the House be appointed to examine existing legislation and practice in relation to the registration of conditional sales contracts and similar documents of title and pledge, particularly in connection with motor vehicles, and to consider ways of providing for a central registry for the said documents and for the issuance of certificates of title of ownership of motor vehicles.

And that the Select Committee have authority to sit during the interval between Sessions and have full power and authority to call for persons, papers and things and to examine witnesses under oath, and the Assembly doth command and compel attendance before the said Select Committee of such persons and the production of such papers and things as the Committee may deem necessary for any of its proceedings and deliberations, for which purpose the Honourable the Speaker may issue his warrant or warrants.

Said Committee to consist of nine members and to be composed as follows:

Mr. Macaulay (Chairman), Messrs. Warrender, Myers, Cathcart, Robarts, Letherby, Jolley, Gisborn and Wintermeyer.

On motion by Mr. Frost, seconded by Mr. Porter,

Ordered, That a Select Committee of the House be appointed to examine existing legislation and practice in relation to smoke control and air pollution in Ontario with particular reference to the installation and maintenance of equipment to control smoke and air pollution and methods and ways of extending public information in connection therewith.

And that the Select Committee have authority to sit during the interval between Sessions and have full power and authority to call for persons, papers and things and to examine witnesses under oath, and the Assembly doth command and compel attendance before the said Select Committee of such persons and the production of such papers and things as the Committee may deem necessary for any of its proceedings and deliberations, for which purpose the Honourable the Speaker may issue his warrant or warrants.

The said Committee to consist of nine members as follows:

Mr. Cowling (Chairman), Messrs. Brandon, Elliott, Kelly, Macaulay, Morningstar, Murdoch, Gordon and Thomas (Oshawa).

On motion by Mr. Frost, seconded by Mr. Porter,

Ordered, That a Select Committee of the House be appointed to study all matters relating to toll roads and to report on the application of the same to certain areas having regard to the needs of the Province of Ontario.

And that the Select Committee have authority to sit during the interval between Sessions and have full power and authority to call for persons, papers and things and to examine witnesses under oath, and the Assembly doth command and compel attendance before the said Select Committee of such persons and the production of such papers and things as the Committee may deem necessary for any of its proceedings and deliberations, for which purpose the Honourable the Speaker may issue his warrant or warrants.

Said Committee to consist of eleven members as follows:

Mr. Robarts (Chairman), Messrs. Auld, Root, Child, MacDonald, Jolley, Mackenzie, Manley, Reaume, Sandercock and Yaremko.

The Honourable the Lieutenant-Governor again entered the Chamber of the Legislative Assembly and being seated upon the Throne was pleased to deliver the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly:

It is now my duty to prorogue the First Session of the Twenty-fifth Parliament of Ontario.

In this Special Session you have adopted certain motions reconstituting Committees which ceased to exist upon the dissolution of the Twenty-fourth Parliament. The work of these Committees will enable an early deliberation by the Legislature of the important matters which they will have under consideration.

May I thank you for your attention to this important public business.

The Provincial Secretary then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant-Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

at Our City of Toronto in Our said Province this twelfth day of January in the year of Our Lord one thousand nine hundred and fifty-six and in the fourth year of Our Reign.

BY COMMAND.

G. H. DUNBAR,
Provincial Secretary.

Tuesday, the thirty-first day of January, 1956, being the first day of the Second Session of the Twenty-fifth Parliament of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable Louis O. Breithaupt, LL.D., Lieutenant-Governor of the Province.

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant-Governor of the Province then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:

Mr. Speaker and Members of the Legislative Assembly of Ontario:

I bid you welcome to this Second Session of the Twenty-fifth Legislature.

Since you met last September, Canada has been honoured by a visit from Her Royal Highness, the Princess Royal, and we are pleased to have been able to extend our hospitality to her here in our own Provincial Capital.

It is a great pleasure to call to your attention the completion of a year in which new levels of employment, production and income have been reached. After a beginning which gave some cause for concern, economic conditions in

Ontario experienced so rapid and so strong a recovery that the output of goods and services in 1955 was nearly ten per cent above that for 1954, and some five per cent above the previous record year of 1953. Mining, forestry, manufacturing and construction contributed to this expansion.

During the past year, Federal-Provincial Conferences were convened in April, June and October. Reports on these proceedings will be made to the Legislature. The principal matters affecting Ontario were:

- (1) Federal-Provincial fiscal arrangements to supersede those expiring March 31, 1957;
- (2) Unemployment assistance to supplement Unemployment Insurance;
- (3) The problem of farm marketing;
- (4) A national plan of Hospital Insurance.

Consideration of all these matters by the Federal-Provincial Conference of Ministers, as well as by the Technical Advisory Committee, is continuing. It is a source of satisfaction that Ontario's proposal to establish a Continuing Committee of Federal and Provincial technical officials was adopted by the Conference unanimously and is now in operation.

Arising out of the conference on fiscal arrangements, the Federal Government last January 6th made certain proposals, the particulars of which will be tabled, as will also its proposals in relation to unemployment assistance. In order to deal with these arrangements, a Special Session of the Legislature will be convened later this year.

Progress towards the adoption of a national plan of hospital services was given a strong impetus when the Government of Ontario submitted its proposals to the Federal-Provincial Conference in April last and further amplified them at the Conference in October. As a result of Ontario's efforts, health insurance was not only placed on the conference agenda, but a special committee was established to study Ontario's, the other Provinces' and the Federal Government's proposals. This committee met in October and again last week. In consequence, more progress has been made on hospital insurance in the past year than in all the previous decades that this subject has been under consideration. The proposals made by Ontario and those received from the Federal Government will be placed before the Standing Committee on Health where they may be examined in detail and later presented to the Members of this House for their fullest consideration. Legislation, involving the organization and administration of our hospitals and aimed at strengthening the foundations upon which such a plan can be proceeded with, will be placed before the House at this Session. In addition, measures affecting sanatoria for consumptives and public health will also be introduced.

At Ontario's suggestion, farm marketing was placed upon the Federal-Provincial Conference agenda. All the provinces have been filled with uncertainties—uncertainties that have persisted over many years—as to their constitutional jurisdiction on this important matter. We have deemed it wise

to have these doubts resolved. Accordingly, the Province of Ontario, in a wide reference, is submitting these questions to the Supreme Court of Canada. The earliest date for the hearing on this subject, which concerns all provinces, has been fixed for next April. In the meantime, intensive studies are being conducted into various alternatives pending the Supreme Court's decision. These studies are designed to give our farmers the legislation and support best suited to their marketing needs. Such enactments will require the consideration of the Legislature at a Session to be held later this year. However, at this present Session, measures will be introduced covering junior farmers' loans, brucellosis control, agricultural societies, co-operative marketing loans and seed potatoes.

The St. Lawrence seaway and power project is proceeding in accordance with plans approved by the Legislature. The carrying out of so large and complex a development inevitably creates dislocations affecting the lives of the people, the municipalities and businesses in that area. These problems are, however, being solved.

As work on the St. Lawrence project proceeds, the importance of the Government's parks policy is becoming increasingly apparent. Legislation will be introduced providing for an integrated policy embracing the Niagara Parks, St. Lawrence Parks and other provincial parks throughout the Province and for making available the necessary funds for such purposes on a long term basis. In this way, the orderly development of a Province-wide parks system will be made possible.

The spectacular growth and development of Ontario has continued during the past year in many aspects on an accelerated basis. Very large problems of importance and complexity are continually arising because of our unprecedented advances. Last week, Ontario submitted its Brief to the Royal Commission on Canada's Economic Prospects. This Brief, which will be tabled in this House, reveals many of the opportunities as well as the challenges which face our people over the coming years. One of these is the ever-growing demand for power. Since the inception of Ontario Hydro fifty years ago, the demand for electric power has increased annually except for two depression years. From 1933 onwards there has been a substantial annual increase, particularly since 1945. In the last decade alone, the Commission's primary power requirements have considerably more than doubled. Furthermore, it is anticipated that this sharp upward trend will continue and that in the next ten years the Commission's generating capacity will require to be doubled again. This means, therefore, that by 1965 we shall have to develop over five million horsepower more than is available today. We shall obtain approximately a quarter of this amount from the St. Lawrence development and a substantial part of the remainder will have to come from sources other than water power developments. Thus, we have turned to nuclear energy which, based upon our unrivalled uranium resources, affords immense potentialities.

In meeting these vast power requirements not only for the next ten years but for the succeeding decade it is necessary to turn with all possible dispatch to bringing to our Province natural gas and oil from Western Canada. Legislation will be introduced enabling the Government of Ontario to advance \$35 million in capital to a Crown corporation for a natural gas pipeline through Northern Ontario. Our partner in this will be the Federal Government. The

building of an all-Canadian natural gas pipeline will contribute immeasurably to the development of industry in northern and southern Ontario and in Canada generally. It will serve to reinforce the power and fuel supplies upon which our economic future depends.

Another vital need to assure Ontario's development is an abundance of water for industrial and domestic purposes, and coincidental with this the abatement and control of water pollution. Last year, the Ontario Water Supply and Resources Committee was set up. Its report has been printed as an appendix to Ontario's submission to the Royal Commission on Canada's Economic Prospects which, as stated, will be distributed. In further recognition of the importance of this work, legislation will be introduced creating in its place the Ontario Water Resources Commission which will have powers and be provided with funds to enable it, without delay, to make a vigorous start on water and pollution problems.

During the past year, notable advances have been made by our construction departments, including Highways, Public Works, and Planning and Development. The huge program approved by this House at the last Session has been carried out, except where shortages of steel and other materials and technical personnel have intervened. With the ever-strengthening of our administrative organization, an even larger capital program will be submitted this year for your consideration in conformity with the needs of our people.

You will be asked to consider measures and vote estimates to facilitate the construction of highways, housing, conservation projects and other public works. Incompleted links of the Trans-Canada Highway will be pressed forward vigorously.

Highway safety—a matter of continental concern—has been receiving attention and action by the Departments of the Attorney-General and Highways during the past year. Provisions will be made for intensifying these efforts in the coming fiscal year.

The report of the Select Committee investigating toll roads will be presented for your study and consideration.

The reports of the Committees investigating Certificates of Title for Motor Vehicles and Smoke Control and Air Pollution will also be received and considered.

My Government has continually followed the policy of adding to the fiscal strength of our municipalities to enable them to meet their many requirements. For the first time, direct municipal representation was included in the Ontario delegation to the Federal-Provincial Conference. Among other things, the form of Metropolitan Government in the Toronto area will be strengthened by transferring the police services to the Metropolitan Corporation and there will be a provision for a two-year term for all Councils in this area to commence on the 1st of January, 1957. The two-year term will enable bi-annual assessments and other improvements to be carried out that will reduce costs and add to the efficiency of local government.

For both the Province and the municipalities, education will continue to be one of our most pressing problems. The school population is now over a million. The enrolment increase this year was nearly 70,000. Another ten years will see approximately 1,600,000 students in our primary and secondary schools. Our present position is favourable in that we have been able to keep abreast of the demands for increased accommodation. During the past year, as a result of nearly 500 building projects, over 2300 additional elementary and secondary classrooms have been added to existing accommodation at a cost of nearly \$60 million. The task ahead is formidable and must be faced realistically. With the rapid upsurge of school population it will be more than ever necessary to restrict ourselves to essentials and provide the resources to pay for schools and engage adequate teaching staff without letting the burden upon the local taxpayers get out of hand. Last year's increase in Provincial grants for education was the largest in a decade. The Province's policy is being continued.

The betterment of human resources is one of our continuing objectives. Legislation will be introduced to provide for improvements in education and to extend the great objective of equality of opportunity. The development of skills and cultures is an important phase of our activities. The Department of Planning and Development's overseas facilities, including Ontario House at London, will be reinforced to assist people coming to Ontario. Through the work of adult education, new Canadians will become more quickly adjusted to the life of a new country. There will also be new provisions for strengthening our welfare program.

In our reform institutions, approaches are being made to the problems of drug and alcoholic addiction, sex deviates and neuro-psychiatric disorders. Honourable members will be asked to approve the continuation of the program for extending training school facilities and for constructing dormitories and other buildings required in the treatment of incorrigible elements in our institutions.

Legislation will be introduced to continue our broad advances in the conservation and management of our resources of minerals, lands, forests, fish and wildlife, and water. Progress is being made in securing increased regeneration of spruce and red and white pine. During 1955 more than 57,000 mining claims were staked in Ontario—an increase of 14 per cent above the unprecedented number in the previous year—striking evidence of the continued interest in mining activities in this Province.

The Committee of Inquiry into the Economics of the Gold Mining Industry has completed its report and this will be distributed to you.

Honourable members will be asked to approve measures for reorganizing the Archaeological and Historical Sites Advisory Board under the Department of Travel and Publicity, and to authorize measures for fostering greater consciousness, both on the part of residents and visitors to Ontario, of this Province's notable history by providing a better marking of historical sites and events.

In addition, legislation on many subjects of interest and concern to our people will be introduced. Bills will be presented to provide more assistance to private organizations operating welfare institutions and to extend child welfare services to children in all Indian Reserves in Ontario. There will be a Bill to

establish the Department of Economics and a Bill to amend The Financial Administration Act. There will be amendments to The Provincial Aid to Drainage Act, The Assessment Act, The Municipality of Metropolitan Toronto Act, The Municipal Act, The Municipal Unconditional Grants Act, The Beach Protection Act, The Mining Act, The Power Commission Act, The Niagara Development Act, The St. Lawrence Development Act, The Department of Labour Act, The Public Health Act, The Highway Improvement Act, The Highway Traffic Act, The Crown Timber Act, The Forest Fires Prevention Act, and several other acts providing for the improved management of land, forest and game and fish.

A Bill will be presented to establish, as a separate educational institution, the Lakehead College of Arts, Science and Technology. There will be amendments to The Public Schools Act, The Secondary Schools and Board of Education Act, and The Separate Schools Act. Finally, numerous amendments will be made to legislation concerned with law enforcement.

The public accounts for the fiscal year ended March 31, 1955 as well as a review of our financial operations for the current fiscal year and the Budget for the year commencing next April 1st will be submitted for your attention. Although these will bear witness to the Province's sound financial operation, they will also bring home very clearly that economic growth and expansion does not occur without giving rise to government costs and problems. The program outlined for the forthcoming year involves undertakings in several new fields designed to strengthen Ontario's productive power and well being. We are deeply conscious of the benefits which come from our democratic heritage and of the need for maintaining, within the limits of our financial power, the full employment of our workers.

Gratitude is expressed to the civil servants of Ontario for their industry and faithful discharge of their duties and responsibilities. The reduced turn-over in civil servants reflects improved conditions.

May Divine Providence guide you in your deliberations.

His Honour was then pleased to retire.

PRAYERS.

That the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant-Governor now before the House be amended by adding thereto the following:—

That this House further regrets that proposals to establish a partial health plan in cooperation with the federal authorities are not accompanied by action to compensate for the inadequacies of the government's present program for human betterment, as evidenced by:

1. Only 1,795 of the approximate 300,000 old age pensioners in Ontario are receiving the joint-provincial-municipal \$10 supplement to the federal pension;
2. Only 1,791 low rental homes have been constructed in the past five years on a government program of from five to twenty-five thousand announced in 1951;

3. Despite the government's long-standing promise, and oft-repeated claim, that they are meeting 50 per cent of the costs of education, provincial grants have dropped to just over 30 per cent of overall expenditures, so that Ontario is today devoting a smaller proportion of our annual income to education than any other province.

And the debate having continued, after some time it was, on motion by Mr. Murdoch,

Ordered, That the Debate be adjourned.

PRAYERS.

3 O'CLOCK P.M.

The following Bill was introduced, read the first time, and ordered to be read the second time to-morrow:—

Bill No. 111, An Act to amend The Workmen's Compensation Act. *Mr. Daley.*

The Order of the Day for resuming the Adjourned Debate on the Amendment to the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant-Governor at the opening of the Session, having been read,

The Debate was resumed and, after some time, the amendment to the amendment, as follows:—

That the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant-Governor now before the House be amended by adding thereto the following:—

"That this House further regrets that proposals to establish a partial health plan in cooperation with the federal authorities are not accompanied by action to compensate for the inadequacies of the government's present program for human betterment, as evidenced by:

- Only 1,795 of the approximate 300,000 old age pensioners in Ontario are receiving the joint-provincial-municipal \$10 supplement to the federal pension;
- Only 1,791 low rental homes have been constructed in the past five years on a government program of from five to twenty-five thousand announced in 1951;
- Despite the government's long-standing promise, and oft-repeated claim, that they are meeting 50 per cent of the costs of education, provincial grants have dropped to just over 30 per cent of overall expenditures, so that Ontario is today devoting a smaller proportion of our annual income to education than any other province."

PRAYERS.

1 O'CLOCK P.M.

Mr. Sutton, from the Standing Committee on Lands and Forests, presented the Committee's Report, which was read as follows and adopted:—

Your Committee recommends that the following Bill be not reported:—

Bill No. 52, An Act to amend The Forest Fires Prevention Act.

Mr. Villeneuve, from the Standing Committee on Game and Fish, presented the Minutes of the Committee together with the Representations made to it, and moved that they be printed as an appendix to the Journals of the Legislature, which motion was carried.

Mr. Spooner from the Committee on Mining presented the Committee's Final Report which was read as follows and adopted:—

The final meeting of the committee was held in Room 1302 of the Whitney Block with the following members present: Messrs. Beckett, Belisle, Brandon, Elliott, Herbert, Janes, Lavergne, MacDonald, Mackenzie, Monaghan, Noden, Sandercock, Spooner and Sutton.

The following resolution was unanimously adopted: Moved by Mr. Janes and seconded by Mr. Gisborn, That this committee expresses confidence in the efficiency of the Inspection Branch of the Department of Mines, and recommends their continued diligence and devotion towards the maximum safety of those engaged in the mining industry in this Province.

The committee further urges that the attention of all persons engaged in the mining industry be drawn to the facilities of the Department of Mines, to be available in the fullest confidence, for the submission of any suggestions or recommendations for the development of safety methods or practices in mining operations.

The committee strongly recommends greater labour-management co-operation in the study, as well as the development and maintenance, of safety in mines.

Mr. Murdoch from the Select Committee appointed to inquire into the payments of indemnities and allowances to Members of the Assembly, Members of the Executive Council, Mr. Speaker and his office and the Leader of the Opposition and his office, presented the Committee's report as follows:—

Your Select Special Committee was appointed on Tuesday, March 20th, 1956, to study and enquire into the payment of indemnities and allowances of Members of the Assembly, Members of the Executive Council, Mr. Speaker and his office, the Leader of the Opposition and his office, including the nature, form and amount of such indemnities and allowances and all matters pertaining thereto, and to report its findings to the Assembly at the present Session thereof.

The committee as appointed and which now presents its report comprises Messrs. Murdoch (chairman), Manley, Reaume, Stewart, Thomas (Oshawa) and Wardrope.

The committee met at the Parliament Buildings at Toronto on the 22nd day of March at 11 a.m. and 7.30 p.m. and on the 23rd day of March at 10.30 a.m. and 12.30 p.m.

A number of letters from members outlining their views and giving details of the expenses incurred by virtue of their membership in the Ontario Legislature, were submitted and these views were of considerable assistance to the Committee in its deliberations.

SITUATION ELSEWHERE:

The Committee gave consideration to the indemnities and allowances provided in other Provinces of Canada, and the Parliament of Canada, and also to the reports of Committees which reported on the same matters on the 10th of March, 1947, and the 5th of April, 1951.

Much could be said with respect to the inadequacy of the present indemnity and expense allowance payable to members when considered in the light of the following conditions:

1. The expansion of Government services and new legislation affecting all Departments now makes membership in the Legislature, in effect, a full-time occupation.

2. The increase in the work of Government has made it necessary to lengthen the sessions of the Legislature and increase the number held annually, thus entailing a greater expense for Members.
3. The desirability of making it possible for all citizens to become candidates for election, even though they may not possess sufficient private means, to enable them to devote full time to their duties as Members of the Legislature.

The view of the committee is that the remuneration received by Members of the Legislature cannot really be regarded as a salary. A member of the Legislature cannot, nor should he expect to be paid commensurate with his responsibilities and duties in public life.

RECOMMENDATIONS:

Your Committee accordingly recommends:

That The Legislative Assembly Act be amended to provide:

1. That there be paid to each member of the Assembly,
 - (a) An indemnity of \$3,600, such indemnity to be payable at the conclusion of the first session held in each calendar year and no further indemnity to be paid in the same calendar year whether or not a further session or further sessions of the same or a subsequent Parliament are held in such year;
 - (b) An allowance for expenses at the rate of \$1,800 annually, payable at the conclusion of the first session held in each calendar year;
 - (c) That the mileage allowance as presently prescribed in subsection 1 of section 74 of The Legislative Assembly Act be paid on the basis of six trips annually;
2. That The Legislative Assembly Act be amended to provide the payment to all members of the Executive Council and the Leader of the Official Opposition of an annual representation allowance of \$2,000;
3. That Mr. Speaker's contingency allowance be increased by \$2,000 annually;
4. Recognizing that a sound, constructive opposition is the essence of democratic government, the committee favours increasing to \$12,000 annually the allowance paid for secretarial assistance to the member recognized by Mr. Speaker as the Leader of the Official Opposition;
5. That in the 25th Parliament, for the office provided for Members of the Opposition other than the Official Opposition, an annual allowance of \$3,000 for secretarial services be provided.

The Committee recommends that these amendments shall become effective in the life of the 25th Parliament of Ontario.

The following Bills were severally read the second time and referred to the Committee of the Whole House:—

Bill No. 24, An Act respecting the Society of Interior Decorators of Ontario.

Bill No. 74, An Act to amend The Mothers' Allowances Act, 1952.

Bill No. 138, An Act to amend The Planning Act, 1955.

The House resolved itself into a Committee to consider a certain Resolution and certain Bills.

After some time Mr. Speaker resumed the Chair, and Mr. Edwards reported that the Committee had come to a certain Resolution as follows:—

2 O'CLOCK P.M.

Mr. Beckett, from the Standing Committee on Legal Bills, presented the Committee's Fourth and Final Report, which was read as follows and adopted:—

Your Committee begs to recommend that the following Bill be not reported:—

Bill No. 122, An Act to establish a Uniform and Simplified Procedure for the Enforcement of Statutory Duties and the Review of the Exercise of Statutory Powers by the Courts.

On motion by Mr. Frost, seconded by Mr. Porter,

Ordered, That, notwithstanding the previous Order of the House, this House will meet at 10 o'clock to-morrow forenoon, to rise for Luncheon Recess, if necessary, at One o'clock in the afternoon to resume at Two o'clock in the afternoon.

On motion by Mr. Goodfellow,

Ordered, That the Third Reading of Bill No. 88, An Act to amend The Assessment Act, on Monday, March 26th, be rescinded and that the Bill be referred back to the Committee of the Whole House for amendment.

The Prime Minister Tabled Answers to Questions as follows:

6. *Mr. MacDonald*—Enquiry of the Ministry—With regard to a particular 13-year-old girl who was transferred from the Galt Training School to Mercer in the Fall of 1955, how many days does the Galt O.T.S. Behaviour Record Book and Daily Log indicate that this girl spent in detention during the 12-month period prior to her transfer to Mercer.

Answer by the Minister of Reform Institutions:—

This question was answered fully on February 9 on page 161 of Hansard, which contains the address of the Honourable John W. Foote.

“From October, 1954, to December, 1954, there were 5 periods of confinement of 1, 6, 7, 8 and 14 days.

From January, 1955, to April, 1955, there was a period of 92 days in which she was in and out of detention. During that time, she spent half of her time out—taking part in the normal programme of the school. The Superintendent is very positive in this statement. She then spent two months in Toronto Psychiatric Hospital. From June 17 to September 4 she slept in detention to prevent her running away, but she was out of detention more than she was in.”

Chastisement by the use of the hand strap in Ontario Training Schools has never been rescinded. Therefore, an Order-in-Council to re-introduce its use in extreme cases was unnecessary.

(1) None. (2) 14. (3) The reasons are quite varied. In five cases the employees suffered from illness but could not be considered total disabilities. In three cases the employees wished to be released to look after aged relatives. One case, a jail matron, resulted from a change of jailers. In the remaining cases the Departments concerned recommended retirement because of re-organization, incompatibility, usefulness ended or other causes.

40. *Mr. Oliver*—Enquiry of the Ministry—In each year since January 1, 1949: (a) What has been the total value of all frequency conversion work done, and (b) What had been the total value of all other work completed, or to be completed, and materials purchased, by Hydro from Eastern Power Devices, Limited.

Answer by the Honourable Mr. Warrender:—

(a) The total cost to the Commission, on a yearly basis, of all frequency conversion work done since the start of the Frequency Standardization Program is as follows:

1953.....	39,199,044
1954.....	42,125,413
1955.....	41,787,561
Total.....	\$223,633,261

(b) The meaning of the question is obscure. Eastern Power Devices, Limited, has not been employed on frequency standardization work at any time and materials purchased from this manufacturer for frequency standardization purposes have been of a very minor nature, amounting to approximately \$10,000 to date and representing small pieces of equipment for temporary substations and mobile frequency changers.

PRAYERS.

10.00 O'CLOCK A.M.

Mr. Dymond from the Standing Committee on Health reported a resolution passed at the conclusion of the Committee's proceedings on Tuesday, March 27th, as follows:—

Resolved,

That this Committee go on record as expressing its thanks to the Government for providing a forum at which all the facts of hospital insurance as known to date could be brought out, in order that an opportunity might be given to the members of the Committee, to the members of the Legislature and to the public at large, to give the results of the studies to date, and further that this Committee recommends that further study be given in order that certain of the problems still apparent may be resolved, and that this Committee be reconvened at some future date.

On motion by Mr. Warrender,

Ordered, That the Third Reading of Bill No. 104, An Act to amend The Power Commission Act, be rescinded and that the bill be referred back to the Committee of the Whole House for amendment.

The Provincial Secretary presented to the House, by command of the Honourable the Lieutenant-Governor:—

Twenty-fourth Annual Report of the Department of Public Welfare for the
Fiscal Year 1954-55. (*Sessional Paper No. 13.*)

Forty-eighth, Forty-ninth and Fiftieth Annual Reports of the Ontario
Municipal Board for the years ending December 31st, 1953, December 31st,
1954, and December 31st, 1955. (*Sessional Paper No. 17.*)

The Prime Minister Tabled Answers to Questions as follows:—

1. *Mr. Oliver*—Enquiry of the Ministry—1. Why has The Proceedings Against the Crown Act, 1952 not been proclaimed. 2. (a) How many applications for fiat to sue the Crown have been made; (b) How long have they been pending; (c) Why have they not been granted.

Answer by the Attorney-General:—

1. It has not been felt that the proclamation of this Act in its present form is in the public interest but the matter is being given continuous study. 2. The meaning of the question is not clear and clarification of the same is required, namely, from what date the applications are to be included.

14. *Mr. Manley*—Enquiry of the Ministry—1. To date, how many homes at Iroquois have been moved by the Hydro Commission. 2. To date, what has been the total cost of moving these homes, including the cost of removing hydro and telephone lines, construction of service roads, etc. 3. What is the daily rental paid by the Hydro Commission for the use of the housemoving machines and the operators, and, what is the total amount paid, to date, for these machines and their operators.

Answer by the Honourable Mr. Warrender:—

1. 85 houses to February 1, 1956. 2. \$305,802.00 to February 1, 1956. This amount includes expenditures which apply to those houses which have already been moved in Iroquois and those yet to be moved. 3. Daily rental is \$388.32. Total amount paid to February 1, 1956, for these machines and operators is \$69,600.00.

26. *Mr. Reaume*—Enquiry of the Ministry—1. What was the estimate made by The Hydro-Electric Power Commission of the cost of converting the electrical equipment of the Toronto General Trust Building located in Toronto. 2. What was the total amount paid to the Canadian Comstock Company, Limited for converting this building. 3. Was the Canadian Comstock Company, Limited paid on a time and material basis on this job. 4. If yes, why.

Answer by the Honourable Mr. Warrender:—

1. The cost of converting the Toronto General Trusts Building was estimated at \$15,199.00, based on an inventory made by Black and MacDonald Limited in February, 1952. This estimate did not include the two elevators in the building.

2. Except for material and direct labour, the costs incurred by Canadian Comstock Company, Limited, in frequency standardization work are not allocated to individual jobs. However, if Comstock's average fee and overhead percentages are applied to material and direct labour costs, the cost of converting the building, excluding the two elevators but including any equipment added or replaced since 1952, was \$12,381.00.

3. Canadian Comstock Company, Limited, was paid on a cost-plus-fee basis as part of their general frequency standardization contract.

4. The Commission has a contract with the Canadian Comstock Company, Limited, for general standardization work on a cost-plus-fee basis and it is not considered practicable to have Comstock do specific jobs on any other than a cost-plus-fee basis. This opinion is held as the same service facilities and the same overhead personnel, such as supervisors, accounting, purchasing and warehouse personnel, would be involved in any other form of contract and accurate allocation of the costs between different types of contract would not be economically feasible.

30. *Mr. Gordon*—Enquiry of the Ministry—1. How many acres of land are leased to: (a) The Long Point Company; (b) The Toronto Big Creek Shooting Club, Limited. 2. What is the term of these leases or agreements. 3. What are the names of the directors of these companies. 4. Do these companies pay taxes to the local municipality. 5. If so, what taxes have been paid since 1952.

Answer by the Minister of Lands and Forests:—

1. (a) 540 acres. (b) This Company had 80 acres under Lease 2008. They assigned to Long Point Beach Resort & Development Limited in 1945.

2. (a) 99 years from January 15th, 1918. (b) N/A. The Long Point Beach Resort & Development Limited holds Lease 2008—99 years from September 15th, 1919.

3. To be answered by the Department of the Provincial Secretary.

4. This is a matter under the jurisdiction of the Township of Walsingham South.

5. See answer to Question 4.

—oOo—

36. *Mr. MacDonald*—Enquiry of the Ministry—1. Are all positions in the Department of Public Welfare filled by competition. 2. Who directs such competitions. 3. What persons are advised of vacancies in this Department.

Answer by the Minister of Welfare:—

1. No. 2. Positions are not filled by competitions but there are qualifying entrance examinations held for the positions of welfare field workers throughout the Province before in-service-training commences. Certain other positions are filled by professional personnel. These matters come under the jurisdiction of the Department Personnel Office. 3. Civil Service Commission; see also the answer of the Minister on presentation of the estimates, March 22nd.

May it please Your Honour:

We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to Her Majesty certain sums of money for the public Service for the fiscal years ending the 31st day of March, 1956, and the 31st day of March, 1957."

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

“The Honourable the Lieutenant-Governor doth thank Her Majesty’s dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty’s name.”

The Honourable the Lieutenant-Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly:

In bringing this Second Session of the Twenty-fifth Parliament of Ontario to a close, I wish to thank you for your diligent and faithful attention to the affairs of this Province. Continuing population growth and industrial expansion have necessitated that you press forward with well-conceived and soundly planned projects conducive to the expansion of enterprise and improvements in well-being. Such has been the purpose of the many Legislative enactments and expenditures which you have approved.

You have been mindful of the needs of the municipalities and at this Session have approved an increase of over \$21 million, or 13 per cent, in assistance to them, the school boards and other local agencies. You have approved an expanded program for school and university facilities, hospitals, highways and municipal roads, public buildings, conservation works, water and sewers and other purposes.

In the field of education, the present need for new school facilities will be greatly aided by the assistance you have authorized. You have also taken steps to stimulate an increase in the number of qualified teachers. You have embarked upon an unprecedented program of university expansion. Assumption University of Windsor has come into this circle. The Lakehead College of Arts, Science and Technology has been established. You have voted substantially larger monies for agricultural colleges and farm research. The Ontario Government’s appropriation for highways and municipal roads subsidies totals \$183 million, making possible—with the municipal share of expenditure on local roads—a combined budget for these purposes of \$233 million.

You have enacted legislation to set up the Ontario Water Resources Commission. This Commission, which will follow the pattern established by The Hydro-Electric Power Commission of Ontario, has been given authority to develop water supplies and to build and operate water supply and sewage disposal systems. Funds have been provided to enable it to set up its administrative organization and to make a start in areas in southern Ontario where water shortages and sewage problems are most pressing and where there are distinct advantages of development on a regional basis.

The Hospital Services Commission has been established to achieve an optimum integration of hospital services in Ontario and to provide the foundation for a hospital insurance program. Intensive studies have been made of

this whole complex and difficult subject. The Legislative Health Committee held sittings at which full details of benefits, costs and implications of alternative plans were reviewed. As very heavy costs are involved in the operation of a hospital insurance system, it is imperative that all avenues be thoroughly explored and that there be the widest possible dissemination of information.

You have also approved a number of important health measures. You have made provision to guard children against the dangers of poliomyelitis by approving the purchase, at a cost of nearly one million dollars, of over three and a third million units of Salk Vaccine. The Sanatoria for Consumptives Act has been amended to tighten control over tubercular persons in custody and to permit other than T.B. treatment to be carried on in designated sections of a sanatorium.

A number of welfare bills have been endorsed. You have increased to \$20 per month the supplementary assistance payments to old age pensioners, of which the Province's share will be \$12. The Charitable Institutions Act, 1956, provides a general revision of the existing Act. Grants for new construction were increased and a new grant instituted to assist charitable organizations to buy existing buildings. The maintenance grant per inmate was also increased. An extension of benefits in certain special cases has been permitted under The Mothers' Allowances Act. The Province's maximum responsibility for private home care for the aged has been increased.

The orderly development of our provincial parks system has been made possible through legislation to establish the Ontario Parks Integration Board, which will provide a consolidated management and development program. Funds have been authorized for carrying out this policy.

You have revised a number of acts dealing with the municipalities. The Metropolitan Toronto Act was amended to provide an integrated police force for the metropolitan area, while provision was made for biennial elections of the municipal councils of all the area municipalities.

A Metropolitan Toronto and Region Conservation Authority has been set up to include the existing conservation authorities in Metropolitan Toronto and the surrounding area. Changes have been made in the Fire Departments Act and the Police Act to facilitate collective bargaining. The Municipal Subsidies Adjustment Act, The Provincial Aid to Drainage Act and The Territorial Division Act have been amended.

In the field of labour, amendments have been made to The Labour Relations Act. Under amendments to the Workmen's Compensation Act, the earnings ceiling on which compensation is calculated has been raised from \$4,000 to \$5,000.

Agriculture has received your attention. The total loans possible under The Junior Farmer Establishment Act were doubled to \$20 million. The Co-operative Loans Act, 1956, sets up the Co-operative Loans Board of Ontario to consider loans to co-operative associations of producers of farm products. The loan ceiling has been raised to \$100,000. A new Act has been passed to regulate the use of pesticides. The Brucellosis Control Act has been amended

to insure better control of this cattle disease. Other legislation has dealt with agricultural societies, seed potatoes and the Ontario Food Terminal. You also voted \$9.2 million for rural hydro power extension during the 1956-57 fiscal year.

You have voted funds for the management and conservation of our forest resources. A special appropriation has been made for the regeneration of white and red pine and spruce. To strengthen administration, you have passed amendments to The Crown Timber Act, The Public Lands Act and The Game and Fisheries Act.

A number of amendments to The Mining Act have been made, notably one setting up a Mining Commissioner to replace the Mining Court. This will facilitate the processing of matters arising from mining claims. The Report of the Committee of Inquiry into the Economics of the Gold Mining Industry of Ontario was tabled for your consideration.

During this Session, you were presented with reports of recent Federal-Provincial Conferences. These included a review of the proposed new fiscal arrangements between the Federal Government and the Provinces, a comprehensive hospital insurance and diagnostic services plan, and the farm marketing problem. The Federal Government's latest proposals for fiscal arrangements were tabled. To deal with these arrangements, a Special Session of the Legislature will be held later this year. While the Legislature has been in Session, the Province has arranged a submission to the Supreme Court of Canada on the question of provincial jurisdiction in regard to compulsory farm marketing schemes. Pending a judicial decision from the nation's highest court, intensive studies into various alternatives are continuing, which will be considered in a Special Session.

Gratitude is expressed to the several Committees of the House for their able and conscientious work on a number of complex problems.

Three Select Committees reported to the House during the Session: The Select Committee on the Establishment of a System of Certificates of Title of Ownership of Motor Vehicles; The Select Committee on Toll Roads; and the Select Committee on Air Pollution and Smoke Control. All these Committees tabled reports containing recommendations which will be given intensive study and consideration. The Select Committee on Toll Roads and the Select Committee on Air Pollution and Smoke Control have been reconstituted.

To make available a new source of fuel and power for Ontario's growing industry and population, legislation has been passed authorizing the Province to loan up to \$35 million to a Crown corporation in order to facilitate the construction of a natural gas pipeline across Northern Ontario.

During the Session you also approved the setting up of the Department of Economics.

You also approved the reorganization of the Archaeological and Historic Sites Advisory Board which seeks to foster greater knowledge of the Province's storied past through a better marking of historic sites and events.

Amendments have been made to The Financial Administration Act, The Ontario Fuel Board Act, The County Court Judges' Criminal Courts Act, The Crown Witnesses Act, The Jurors Act and The Summary Convictions Act. The legal framework for the improved administration of The Land Titles Act has been provided. Amendments have been made to The Conveyancing and Law of Property Act, The Limitations Act, The Settled Estates Act, an Act respecting Real Property and The Fraudulent Conveyances Act, while The Estates Tail Act was repealed.

An Act was passed providing for the separate taxation of diesel fuel used in motor vehicles.

A measure instituting full-time membership on the Ontario Highway Transport Board has been approved, while other amendments have been made to The Highway Improvement Act, The Land Surveyors Act, The Regulations Act, The Training Schools Act, The Trustee Act, The Railway Fire Charge Act, The Limited Partnerships Act and The Fire Marshals Act.

Extensive amendments have been made to The Securities Act, while parts of The Insurance Act dealing with fire insurance and with accident and sickness insurance have been revised. The Credit Unions Act was also amended.

You have also approved amendments to strengthen The Public Schools Act, The Secondary Schools and Boards of Education Act, The Department of Education Act and The Separate Schools Act.

In addition to the salary increments which are paid to members of the Civil Service annually in cases of meritorious service, the salary ratings of many civil servants, particularly in the junior grades, are being increased. Moreover, an amendment to The Public Service Act will enable casual employees, upon their appointment to the Permanent Staff and payment of contributions, to become eligible under the Pension Fund for the full time they were employed as casual workers. The Legislative Assembly Act has been amended to bring the provisions for indemnities into line with those provided elsewhere.

I wish to thank the Honourable Members for their earnest consideration of all these measures and for the financial provision that has been made to meet the Government's requirements in the coming fiscal year. It is a source of gratification that in the face of the inexorable increases in expenditures for education, hospitals, public welfare, highways, municipal thoroughfares and provincial and municipal services of all kinds, the fiscal position of the Province has remained strong. However, the demands for essential services are out-pacing our revenues, and the situation calls for the most careful husbanding of our financial resources, both on the part of the Province and the municipalities. It cannot be overlooked that an amount equivalent to over 40 per cent. of the Province's net ordinary revenue is being paid to the municipalities, the school boards and other local agencies. Nevertheless, municipal tax rates are also rising. It is unfortunate that the Province's negotiations with the Federal Government on fiscal arrangements have been disappointing.

Owing to the conservation of our credit in past years, Ontario's bonds continue to be held in high regard by the investing public. Thus, we are able to

finance our large-scale obligations at low rates of interest. This position must be maintained, and our efforts will be devoted to that end. In spite of our problems, the Ontario economy continues to forge ahead in economic development. Our total provincial product last year—the end value of all goods and services produced—rose by 10 per cent. Business is buoyant and employment continues on a high level.

In proroguing this Session, I pray that Divine Providence will bless this Province and promote the well-being of the whole Nation.

The Provincial Secretary then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant-Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.
